## 2017 Year in Review By The Numbers!

- 89** Number of hospitals in Kentucky, Southern Indiana and Southern Ohio that recycled on a monthly basis with Supplies Over Seas
- 65** Number of other medical institutions and doctors' offices that recycled with SOS
- 367** Number of individuals and nonprofits donating medical surplus to SOS
- 408,609** Number of pounds of medical surplus received; over 81,000 pounds a month!
- 308,337** Number of pounds shipped to communities in need
- 130** Number of mission teams that used the "Medical Team Store" – sponsored by KentuckyOne Health & UPS – to support their short-term mission trips
- 19** Number of 40-foot oceangoing containers shipped
- 21,188** Number of pounds donated to regional nonprofits, medical and nursing schools, and animal welfare organizations
- 67,962** Number of pounds recycled
- 19,239** Number of volunteer hours given to Supplies Over Seas
- \$464,430** Value of volunteer hours donated to SOS (*Using Corporation for National & Community Service's \$24.14/hour*)
- 3,224** Number of individual volunteer experiences at SOS

## From the Chair and CEO

The local and global impact of **our mission-focused work touched millions of lives** this past year. We are so grateful to you for sharing our commitment to build a better world. Every volunteer, healthcare provider and donor who supported our mission played a significant role in helping to save lives and preserve our environment.

SOS experienced significant growth in our 2017 fiscal year. We increased collections of medical supplies and equipment by 25% and sent a record 19 oceangoing containers valued at \$2,886,037 to regions in need across the globe. In addition, SOS had the honor of helping lead "Love from Louisville," a multi-organization project supported by the Mayor of Louisville that delivered humanitarian aid to refugees stranded outside Athens, Greece.

Our **collection** of medical surplus reduces the amount of material that goes into a landfill and helps preserve the health of our community. Our **shipment** of medical surplus provides critically needed medical care to the poorest of the world, and helps save the lives of children and entire families. Our **donation** of expired medical surplus to medical and nursing schools helps prepare the healthcare workers of tomorrow.

Supplies Over Seas is truly a **one-of-a-kind** nonprofit in our community!

As we approach our 25th year of operation, SOS has a strong foundation – begun by the Greater Louisville Medical Society, strengthened as it became an independent nonprofit, and now ready to expand its impact to touch even more lives.

With deepest gratitude,

Denise Sears  
President & CEO

K. Thomas Reichard, MD  
Chair, Board of Directors

## OUR MISSION

**Supplies Over Seas** (SOS) meets **critical** healthcare needs in developing countries around the world by **recovering** and **redistributing** surplus medical supplies and equipment. SOS promotes **environmental stewardship**, partnering with hospitals and others to recover and send what would otherwise go to the landfill.

## OUR VISION

To be a **first class regional medical surplus recovery organization**, promoting global health, environmental stewardship, and community awareness. SOS will do this through the efficient recovery, processing, and responsible redistribution of medical supplies and equipment to improve healthcare for the poor and underserved worldwide.

## OUR COMMUNITY

SOS **relies** on the **generosity** of donors, volunteers, and friends; it receives no government funding, and accomplishes its **big** mission with a very **small** staff. SOS directly benefits **underserved people** living in **medically impoverished** communities abroad and at home by delivering necessary medical supplies and equipment to health clinics, hospitals, and other institutions. SOS matches surplus with need, connecting communities, and delivering a **world of health and hope**.

## Container Shipment Program

SOS ships 40-foot cargo containers filled with medical supplies and equipment to hospitals and clinics around the world. Containers on average hold 6 to 8 tons of supplies and equipment conservatively valued at \$150,000 - \$350,000. The donation requested for a full, 40-foot seagoing container is \$12,500. The initiating organization is responsible for arranging and paying for shipment.

### Gonaïves, Haiti

**Dr. Robert Hilgers** and his nonprofit **Women’s Cancer Alliance** in Louisville have been working diligently for years to open a children’s hospital and clinic in Gonaïves, Haiti. It will be the first pediatric hospital there and will provide lifesaving care to women and children.

“This is a good start in terms of coming up with the best medical care they can provide in their circumstances,” says Dr. Hilgers.

**The Rotary Club of Louisville**, along with **Second Presbyterian Church, The Cralle Foundation** and other donors, played a key role in sponsoring the container and helping him reach his goal.

**The Rotary Club of Prospect/Goshen** approached SOS with a goal of helping end cervical cancer in Haiti. It is largely treatable if found early, but today cervical cancer is responsible for 18% of cancer deaths in Haiti – due largely to a lack of screening and detection.

The club joined forces with CapraCare, Inc. in Fonfrede, Haiti to bring preventative care to women. Last April, SOS sent a 40-foot seagoing container with OB/GYN supplies, gloves, exam tables, medical instruments, and much more to help improve healthcare for women in the community.

### St. Vincent and the Grenadines

The most rewarding part of our mission is seeing the items we collect, sort, pack and ship arrive at their destination to begin spreading health and hope. Last June, staff and volunteers loaded a 40-foot shipping container of hospital beds, medical supplies and equipment bound for the Diocese of Kingstown in St. Vincent and the Grenadines, a group of Caribbean islands north of Venezuela.

The container was made possible by individual contributions to SOS in honor of **Fr. J. Ronald Knott** and the **Catholic Second Wind Guild**, an organization that uses the talents and skills of retired professionals to generate creative solutions to complex issues on the islands. Several facilities were severely lacking in up-to-date equipment and supplies.

Fr. Knott, a retired priest of the Archdiocese of Louisville and consultant to the Diocese of Kingstown, was there to receive the container and work with the Minister of Health and representatives of the Diocese. The official handing over of the critically needed medical surplus was the source of great excitement in the community.

The supplies benefited Milton Cato Hospital, St. Benedict Orphanage, Bread of Life Orphanage, Bequia Clinic, Lewis Punnet Nursing Home and the Georgetown Clinic.

Minister of Health & representatives of the Diocese received the container

Fr. Knott and volunteer Paul Bluel

## Senegal, West Africa

Before he was a biomedical engineer living in Indianapolis, **Adama Mbaye** was a nurse in Senegal. Knowing how desperate his people are for medical care, he founded the nonprofit Clinic Keur Docteur but lacked the personal resources to completely fund the project.

We shared his plight with **Brown-Forman**, a significant corporate partner for SOS that immediately stepped up to fund the balance of the project. At the end of June we filled a 40-foot container with over 15,000 pounds of OB/GYN and other medical surplus, bound for Senegal.

“Brown-Forman is thrilled to partner with Louisville’s Supplies Over Seas to [help] the Thies region of Senegal. We give back because it’s good for our communities, our

employees, and our business—and because it meets the critical needs of our neighbors both here at home and those far away,” stated Jim Perry, Brown-Forman SVP and a member of the SOS Board of Directors.

## To Greece with Love From Louisville

SOS was honored to work with **Love From Louisville**, a humanitarian effort to send supplies to refugees stranded outside Athens, Greece. Collaborating with the Center for Interfaith Relations and Muslim Americans for Compassion, the project enjoyed support of the Office of Mayor Greg Fischer and other organizations noted below.

Families all over Louisville donated clothing, toys, personal hygiene items, diapers, and so much more. Donations were sorted and packed at SOS by 140+ volunteers. In all, 1,505 boxes totaling 44,763 pounds were sent and divided among the refugee camps.

**UPS**, another dedicated SOS partner, volunteered to fly pallets of donated rice packets from **Love the Hungry** to provide immediate relief. The balance of the donations was sent via two oceangoing containers, made possible with support from the community

and **Kosair Charities**. Organizations involved in Love From Louisville were:

- Mayor’s Give A Day
- Kosair Charities
- UPS
- Muslim Americans for Compassion
- Center for Interfaith Relations
- Love the Hungry
- SYSCO
- WaterStep
- Louisville Metro Fire Department
- KYANA Packaging Solutions
- Packaging Unlimited
- Shippers Supply Company
- Vector Global Logistics

## Custom Pallet Program

For groups planning large-scale projects, or for clinics and hospitals abroad in need of supplies, SOS offers **custom-packed shipments**. Depending on its contents, each pallet typically holds \$5,000 - \$15,000 worth of medical supplies and equipment. A donation of \$1,100 per pallet is requested. The initiating organization is responsible for arranging the shipment and paying shipping costs.

## Walden High School student sends pallet to Honduras

Last spring, Leanne-Sarah Gnamba, a senior at Walden High School, raised funds to ship medical supplies to the **Simon Contreras Medical Clinic** in Marcala, Honduras as her senior project.

In 2016 SOS had partnered with Safai Coffee to send a 40-foot container to this clinic, but they still had a need for more obstetric supplies to help care for new mothers and babies.

"The idea came when my mother said, 'Leanne, do you know that you are blessed and privileged to have everything at hands

reach? In my country (Côte d'Ivoire), when people have a simple illness they wait in suffering because of the lack of availability of medicine and money to purchase it.'

When she told me that, it struck something in me and I knew I had to do something about it," said Leanne.

"This pallet is indeed a wonderful surprise for Marcala's Clinic! It will be of GREAT HELP especially for the many mothers and babies that attend the clinic." - Maritza Midence, Simon Contreras Medical Clinic

Leanne at SOS helping pack supplies for the pallet she raised funds to ship to Honduras.

## Custom Box Program

For those who cannot visit the SOS **Medical Team "Store"** to assemble a hand-carry, SOS packs and ships custom boxes. SOS requests a \$100 donation for supplies up to 50 pounds, and an additional \$2 per pound beyond the first 50 pounds.

## Hand Carry Program

SOS's **Hand Carry Program** allows medical relief workers undertaking short-term work abroad to visit the **Medical Team "Store"** to collect needed supplies and equipment that can be carried with them in their luggage. A donation of \$50 is requested for the first 50 pounds of supplies and equipment, and an additional \$2 per pound beyond the first 50 pounds.

## Tanzania

For many years **Dr. Bill Smock** has taken U of L medical students on summer mission trips to Africa – to Kenya, and more recently to Tanzania.

After their planning is complete, the students meet at SOS to pack suitcases of medical supplies and instruments they will need to treat the diseases and injuries they will likely encounter on their trip.

Dr. Smock and students cleanse wounds, treat skin conditions, and perform other treatments for patients that have come, sometimes from many miles away, when they hear a doctor is in the area. Besides serving as associate professor of emergency medicine at U of L, Dr. Smock is also the LMPD police surgeon and on the SOS board of directors.

Dr. Bill Smock

## Medical Team Store

Fondly referred to as a store, it is actually a unique collection of medical instruments and small items that are made available to individuals and groups that are traveling for short-term medical mission trips. These are items that would fit in a suitcase or duffle bag, and medical teams often carry extra luggage of these items and leave them behind for the clinics and hospitals where they performed their work.

SOS does not sell its donated medical surplus but we do request donations to help cover our costs of gathering, sorting, storing and processing items for distribution; just as we do for the containers, pallets and boxes we ship.

and coveted items they can select for the particular surgeries or treatments they plan to perform – cleft palates, burns, wounds, orthopaedics and more.

We love to see nurses' or doctors' eyes light up when they walk in and see unexpected

# How You Can Help

## Volunteer

It takes thousands of volunteer hours to transform the supplies that are donated to SOS into the materials that serve as a life-saving solution for medically impoverished communities around the world. SOS has a small paid staff of seven. As such, we rely on our volunteers in order to realize our big mission to deliver health and hope. Individuals and groups are welcome.

## Donate

Supplies Over Seas depends on financial support from individuals, corporations, and foundations. We receive no government or United Way funding. SOS is a 501(c)(3) nonprofit organization, meaning all donations are tax-deductible as provided by law.

Your donation allows SOS to help make the hospitals in our region greener and to support shipments of medical supplies and equipment to a community in need.

## Donate Your Own Medical Surplus

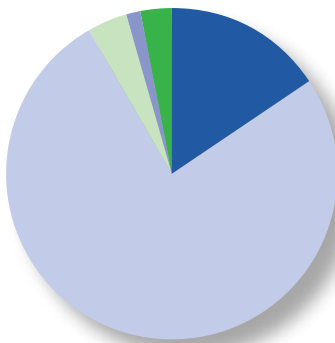

Individuals and families often have crutches, canes, wheelchairs, walkers and unused medical supplies following an illness or surgery. Don't throw them out – bring them to SOS and we will give them to someone who desperately needs them!

## Visit/Tour/Meet/Invite Us to Speak

Come take a tour of the SOS warehouse! See with your own eyes how Supplies Over Seas is able to use volunteer hands in order to turn thousands of pounds of medical surplus from waste into materials that transform healthcare conditions in medically impoverished communities across the globe. Bring a friend or a group – you and your organization are welcome!

Looking for an interesting place to meet? Consider holding your meeting in our conference room. To schedule a tour or to invite us to speak to your group, please call (502)736-6360.

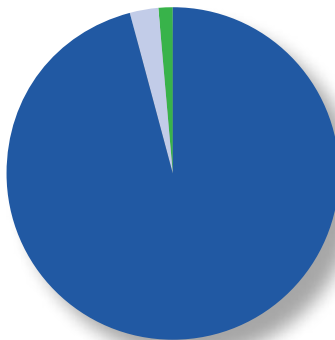

## FY 2017 Financial Summary

### Income

- Contributions \$613,453 **15%**
- Donated supplies & equipment \$2,982,738 **76%**
- Recycling Revenue \$153,376 **4%**
- Shipping Revenue \$59,848 **2%**
- Other income \$111,831 **3%**

Total Income: \$3,921,246

### Expenses

- Program \$3,871,902 **96%**
- Management & General \$108,884 **3%**
- Fundraising \$48,945 **1%**

Total Expenses: \$4,029,731

Net Assets: \$3,974,307

(includes \$2,982,738 in donated supplies & equipment)

All figures as reported in the Audited Financial Statements for the year ended June 30, 2017.

# Local Impact

Nothing gets thrown away or recycled if we can possibly find another use or home for it.

Those that cannot be used in medical care are donated by SOS to area medical schools, nursing schools, local animal shelters and clinics. Personal hygiene and other items that cannot be put into our inventory of medical surplus are shared with local area nonprofits that need them.

SOS periodically opens its doors to area nonprofits to come and take what they can use – free of charge.

## Local Groups That Benefited

- |                                   |  |   |   |

# Bourbon&Band-Aids

“Bourbon and Band Aids” was a successful new fundraising event made possible by the generous sponsorship of **Delta Dental of Kentucky**. On June 2nd at The Olmsted, about 100 guests were treated to a bourbon tasting experience from nine local distilleries.

Participating were **Woodford Reserve, Old Forester, Evan Williams, Maker’s Mark, Kentucky Peerless Distilling Co., Rabbit Hole, Wild Turkey Bourbon, Willett Distillery** and **Hartfield & Co.**

Gourmet hors d’oeuvre pairings by Masterson’s and great music from the Misty Mountain String Band rounded out the evening.

Several bourbon-related gift baskets and other items were raffled and auctioned off to add to the dollars raised for the humanitarian aid SOS provides. Our sincere thanks go to **Delta Dental of Kentucky**, all the distilleries and other participants, and to Kim Ray Smith, event planner.

Jacquie McMillian and SOS board member Sue Davis

Supplies Over Seas has earned accreditation by the **Medical Surplus Alliance**, the national organization that governs medical surplus recovery organizations.

Criteria include adherence to World Health Organization guidelines and strict protocols on how items are collected, processed and distributed to promote improved health locally and globally. The process must be done safely and intelligently. The motto "right item in the right hands at the right place at the right time" is particularly important when the items are medical supplies. Not following just one of those variables can erode any benefit and sometimes create harm.

This is a great honor for SOS and recognition of our high standards of excellence.

Norton Waterman, MD  
1928-2017

### The Waterman Society

With a planned gift to Supplies Over Seas, you can leave a legacy of making a difference in the world, as you help people in medically impoverished communities for years to come.

One easy way to include SOS in your estate plan is to name SOS International, Inc. (dba Supplies Over Seas) as a beneficiary of your donor advised fund, retirement plan, IRA, or life insurance policy. It's as simple as filling out a beneficiary designation form from your plan provider or administrator.

Your gift qualifies you for membership in The Waterman Society, named for our late founder, Norton Waterman, MD, to recognize generous donors who contribute to SOS in this special and lasting way.

For more information, please contact Tim Tomes, Director of Development & Communications at 502.736.6360 or [tim.tomes@suppliesoverseas.org](mailto:tim.tomes@suppliesoverseas.org).

## Medical Recycling Partners

Thank you to our Medical Recycling Partners! Supplies Over Seas partners with hospitals and others around the region. They provide usable medical surplus along with significant financial and volunteer support. SOS provides a convenient, cost-effective way for them to donate medical surplus, which supports their own green initiatives, and at the same time extends their healing missions to the poor and underserved worldwide.

## Volunteers

It takes **thousands** of volunteer hours to transform the surplus medical supplies and equipment that SOS recovers into the materials that deliver health and hope to communities in need. Put simply, **volunteers are the lifeblood of SOS**. SOS relies on volunteer hands in order to accomplish a myriad of essential functions, including: administrative support; biomedical expertise; inventory management; volunteer management; fundraising support; and, of course, sorting supplies! Pictured are just a few of the beautiful people who make SOS work.
