Section A – Requesting Organization Application

If you are requesting one of Supplies Over Seas' pallets of medical supplies, please read and complete this application. Specialized Pallet Applications are approved on a case by case basis depending on SOS's stock at the time and the amount of time it will take to make the custom pallet.

1. Organization Name:			
2. Contact Name:		Title:	
3. Relationship to End User Facility or Recipient Organization:			
4. Address:			
5. City:	State:	Zip Code:	Country:
6. Phone:	Mobile Phone:	Fax:	
7. Email address:		Website:	
8. Is requesting organization a 501(c)3 organization? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please forward a letter of determination. If no, please explain:			
9. Has this organization received assistance from Supplies Over Seas in the past? <input type="checkbox"/> Yes <input type="checkbox"/> No			
10. How did you hear about Supplies Over Seas?			
11. Would you like an estimate for shipping/handling charges? <input type="checkbox"/> Yes <input type="checkbox"/> No			
12. Will Requesting Organization be responsible for shipping and handling charges? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, go directly to Section C. If no, complete Section B, below.			

Section B – Funding Arrangements

*Supplies Over Seas is a non-profit organization and all of the medical supplies and equipment that we send are donated. However, we do require funding to cover the cost of operating Supplies Over Seas. Our Program Cost Sponsorship Fee is \$2,500 per pallet, plus the actual shipping cost in most cases. **Depending on its contents, a typical Supplies Over Seas pallet is valued at \$5,000-\$10,000. Please identify the source to provide the funding for this pallet(s). Payment must be received prior to shipping.***

SOS will hold supplies or equipment once sponsorship payment is received. Shipments should be booked within 3 months of receiving payment; any shipments that are not sent within 3 months will have their supplies and equipment returned to inventory to be made available for other recipients.

13. Organization responsible for Program Cost Sponsorship Fee:			
14. Contact Name:		Title:

24. After you have used a consumable item or a piece of equipment can no longer be used, how do you dispose of that item?					
25. Other comments about this healthcare institution:					

Section D – Shipping Documentation

Consignee This is the organization which appears on official shipping documents as the recipient of the pallet(s). In some cases the Consignee is the healthcare institution which will use the donated medical supplies. In other cases it is a charitable organization which will receive the pallet(s) and give the donated medical supplies to a local healthcare institution.

Organization _____ Date _____

Custom Pallet Sponsorship Application

1. Organization Name used for Consignee:	
2. Contact Name:	
3. Address EXACTLY AS IT SHOULD APPEAR ON OFFICIAL SHIPPING DOCUMENTS (street, city, state/province, country, postal code, etc. DO NOT PROVIDE P.O. BOX):	
4. City:	Country:
5. Postal Code:	
6. Is this the healthcare institution which will USE the donated supplies? <input type="checkbox"/> Yes <input type="checkbox"/> No	
7. Comments:	

Notify Party

This is the person to whom official shipping documents will be mailed via ground courier. This person will use the shipping documents to remove the pallet(s) from the port.

1. Name:

Custom Pallet Sponsorship Application

Section F – Shipping Release –Statement of Understanding

When requested, SOS will facilitate the shipping arrangements for our Requesting Organizations and/or Recipient Organizations with the understanding that the shipping is the responsibility of the client and not Supplies Over Seas. Supplies Over Seas wants to ensure that the Requesting Organization and/or the Recipient Organization understands that they will be responsible for all of the shipping costs that may include but not limited to the following costs:

Shipping Fees: This will include all shipping costs provided by the shipping company.

In Country Fees: In-country fees will vary. In country fees are the sole responsibility of the Requesting Organization and/or Recipient Organization. In-country fees include, but are not limited to the services of a Consignee to negotiate all other in-country fees, handle customs issues, and arrange in-country transport of supplies and equipment. Supplies Over Seas is not responsible for in-country fees or activities.

Demurrage or Storage Fees: Supplies Over Seas is not responsible for any demurrage or storage fees while waiting for customs clearance.

In-Country Documentation Lists: Supplies Over Seas has developed standard inventory lists and documentation that is sufficient for the vast majority of customs offices. Documentation, beyond the Supplies Over Seas standard, (i.e. item pictures, fibers in textiles and ingredients in products) is the responsibility of the Requesting/Recipient Organization.

In-Country Customs Agents: Supplies Over Seas strongly recommends that the Requesting Organization and/or Recipient Organization hire a customs agent to facilitate the release of the pallet through the customs process at the port and the removal of the pallet to its final destination.

Pre-Shipping Inspection: If the receiving country requires a pre-shipping inspection, it is the responsibility of the Requesting Organization and/or Recipient Organization to pay the inspection fee.

The undersigned Requesting Organization and/or Recipient Organization accepts full responsibility for all shipping related costs that are assigned to the shipping process of the requested pallet.

Section G – Recipient Agreement

Please read this section carefully so that applicant is aware of all responsibilities

Documentation/Accountability

SOS has received medical surplus supplies from a variety of donors. Through the donor's generosity, SOS is able to share cost-saving and life-saving materials. For this reason, we must document to our donors how their supplies are being used. So that SOS can improve future services, applicant will also receive a post-trip evaluation survey that is due upon return of mission trip.

PHOTOGRAPHS: All organizations requesting SOS supplies and equipment must document the final destination of the supplies by taking photographs of the clinic or hospital using the supplies. Photos should include, but are not limited to: an outside shot of the clinic/hospital; clinic/hospital signage; inside of the clinic/hospital; unpacking the supplies; supplies being put on shelving; and the public being served by the supplies. **WRITTEN DOCUMENTATION:** SOS would like to receive a short quote or story on how the supplies have improved health care delivery for the clinic/hospital. **FORWARD:** Photos and written documentation should be sent to admin@suppliesoverseas.org **FUTURE SHIPMENTS:** Because this documentation is so important to the future success of SOS, failure to supply photos or written documentation may result in the requesting organization's ability to apply for supplies in the future.

Custom Pallet Sponsorship Application

Release and Indemnity

The medical supplies, equipment, materials and other items (“Materials”) available from Supplies Over Seas (“SOS”) are items that would have been discarded or otherwise disposed of by hospitals or health care providers in the United States. These Materials are being made available strictly on an “as is” basis for humanitarian use in circumstances in which sufficient alternative sources of such resources are not available. The recipient organization recognizes that SOS and the donor facilities do not make any representations or warranties, either express or implied, as to the condition of the Materials, and further recognizes that SOS and the donor facilities make no representations or warranties, express or implied, that the Materials are fit, appropriate, free from defects, sterile, pure, operable, or otherwise suitable for any intended purpose. The recipient organization accepts the Materials “as is,” with all faults, and acknowledges that the inspection for any defects and the safe operation of said Materials is solely the responsibility of the recipient organization. Each recipient organization, recipient facility, and responsible manager of such entities assumes full responsibility for making an independent determination of the appropriateness of the Materials (or any part thereof) before using them, and for discarding any Materials which are not appropriate for use. Under no circumstances shall SOS, the manufacturer or distributor of the Materials, or any United States hospital or health care provider that ever owned or used the donated equipment, be liable to recipient organization or anyone for any direct, special, indirect, incidental, or consequential loss or damage resulting from the Materials or their use. To the maximum extent permitted by law, the recipient organization fully accepts and assumes all risks and all responsibility for losses, costs, and damages that the recipient organization, its agents, representatives, members, directors, officers, employees, agents, contractors, patients, and transferees (“Users”) may incur as a result of the Materials or their use, including without limitation personal injuries, illness, damage, loss to property, and death. SOS and the recipient organization recognize that this agreement shall release SOS and the donor facilities from any and all liability for personal injury and/or any other type of injury arising from the use of the Materials. The recipient organization acknowledges that the consideration for this release and indemnification is the donation of the Materials themselves. By making an application for the receipt of such Materials and by accepting such Materials, the recipient organization, to the maximum extent permitted by law, fully releases, acquits, and forever discharges SOS, the donor facilities, and each and every past and present subsidiary, affiliate, officer, director, agent, servant, employee, trustee, and representative of SOS and the donor facilities (“Released Persons and Entities”) from any and all loss, damages, claims, causes of action, suits, debts, liens, obligations, liabilities, demands, costs and expenses of any kind, character, or nature whatsoever, known or unknown, fixed or contingent, which might arise from or be related or associated in any way with the Materials or their use, including but not limited to any injury, illness, disease, property damage, death, or loss of any nature suffered or sustained in connection with the use or possession of the Materials. To the maximum extent permitted by law, the recipient organization also agrees to indemnify, save, and hold the Released Persons and Entities harmless for any loss, damages, claims, causes of action, suits, debts, liens, obligations, liabilities, demands, costs and expenses (including attorneys’ fees) of any kind, character, or nature whatsoever, known or unknown, fixed or contingent, which may be incurred arising out of or related to the use or possession of the Materials, regardless of the nature or the extent of the injury, illness, disease, property damage, death, or loss, and regardless of whether it results from the negligence of the Users or of the Released Persons and Entities.

Shipping Responsibility Understanding

SOS is happy to facilitate the shipping for our requesting organizations with the understanding that the shipping is the responsibility of the client and not Supplies Over Seas. Supplies Over Seas wants to ensure that the requesting organization and the recipient organization understands that they will be responsible for the following costs: pallet(s) Sponsorship Fees; Shipping Fees; In Country Fees (In-country fees will vary. In country fees are the sole responsibility of the Requesting Organization and Recipient Organization. In-country fees include, but are not limited to the services of a Consignee to negotiate all other in-country fees, handle customs issues, and arrange in-country transport of supplies and equipment and return transport of empty. Supplies Over Seas is not responsible for in-country fees or activities.);
 •Supplies Over Seas is not responsible for any demurrage or storage fees while waiting for customs clearance; Supplies Over Seas has developed standard inventory lists and documentation that is sufficient for the vast majority of customs offices. Documentation, beyond the Supplies Over Seas standard, (i.e. item pictures, fibers in textiles and ingredients in products) is the responsibility of the Requesting/Recipient Organization.

Electrical Current

Applicant understands that the equipment provided by SOS is 110 V/60Hz. Applicant further understands that it is their responsibility to secure adapter plugs and/or step-down transformers to ensure all donated equipment works properly with the electrical outlets and electrical current in the receiving country.

Section H– Signed Agreement

Please sign below, scan all pages of this application and email the scanned copy to admin@suppliesoverseas.org or fax to +1 502 568 3979

I, _____ guarantee that the supplies I receive as donations from
(Contact Person for Consignee)

Supplies Over Seas, Inc. will be delivered to _____ / to benefit patients
(healthcare institution)

in need. I understand that these supplies are donated, have no commercial value, and therefore I will not sell or exchange these items for profit or gain. I further attest that I have read and agree to receive donated items from SOS according to the stipulations above. I also understand and agree to the shipping requirements. The recipient organization agrees to provide SOS with photos and feedback whenever possible related to how the medical supplies and equipment from this shipment are used. The recipient organization gives SOS permission to use stories, photos and video related to this shipment for marketing and fundraising purposes.

If the undersigned is an entity, the undersigned represents and warrants that the undersigned has the authority to commit the entity on whose behalf the undersigned is signing this document.

Section I– Order Form

Supply requests **MUST** be filled out on the SOS order form. If there are items you do not see in this list, please feel free to request the items since we never know what will be donated. (Note: since SOS relies on donations we cannot guarantee that any item is in stock, but that we will do our best to fill the order).

Each pallet from SOS comes with the items listed in each category. Please select the pallets you would like to order.
